PRODUCT OVERVIEW

How does it work? What can I expect?

Using state-of-the-art technology, PerfectSmile creates a series of clear aligners that painlessly move your teeth to their ideal position. Each aligner is custom made to fit your teeth perfectly and comfortably. The best part - no one can tell you're straightening your teeth! They're clear and almost invisible from a distance. Simply wear each aligner as prescribed by your dentist, and then switch to your next tray in the provided kit. It's that simple. Schedule a consultation with your dentist and see if PerfectSmile is right for you. Get started today and love your smile.

PerfectSmile

VS. TRADITIONAL BRACES

The benefits of using PerfectSmile Clear Aligners make it the clear choice for correcting misaligned teeth.

Why struggle with metal brackets, unsightly wires, and countless visits to your dentist? There is now a clear alternative that is designed and manufactured in Canada.

A BRAND NEW SMILE

DESIGNED BY YOUR DENTIST

MADE IN CANADA

STEP BY STEP

YOUR PERFECTSMILE JOURNEY

1. VISIT THE DENTIST. Ask about PerfectSmile Clear Aligners, or find a local provider by emailing info@perfectsmilebyshaw.com.

2. DISCUSS .Discuss your smile concerns with the dentist. Tell your Dentist what your dream smile is!

3. IMPRESSIONS AND PLANNING. Your dentist will take impressions of your teeth with impression material or a digital scanner which will be sent to the PerfectSmile laboratory. Your dentist and our technicians will discuss and plan your case. Your Dentist will be able to communicate with you the length and cost of your PerfectSmile treatment.

4. BOOK AND FIT. Book an appointment to arrange the fitting of your first PerfectSmile aligner. This would usually be about 3 weeks following your impression taking appointment.

5. START SMILING! Within a few weeks you will start noticing your teeth moving into their PerfectSmile position.

1. A CLEAR ALTERNATIVE TO BRACES
2. TREATS A WIDE VARIETY OF ORTHO CASES
3. ALIGNERS CAN BE REMOVED AT ANY TIME
4. PATIENTS CAN EAT ANY KIND OF FOOD
5. BETTER FOR CLEANING AND PLAQUE CONTROL
6. BETTER FOR OVERALL PERIODONTAL HEALTH
7. LESS RISK OF ENAMEL DECALCIFICATION
8. LESS APPOINTMENTS "No wires to tighten"
9. EXTREMELY COMFORTABLE
10. DOESN'T IRRITATE YOUR GUMS OR LIPS
